

eXcellence in Infrastructure Solutions

X-Care

MANAGE

By implementing industry standard best practices for network and systems management, we can enable you to address changing business needs quickly.

MONITOR

We proactively monitor your network and systems to identify and resolve issues in a timely manner thus maximizing uptime.

REPORT

Quarterly performance reports and recommendations help you identify trends and do better planning for the future.

MANAGED SERVICES FOR BUSINESS

X-ISS and X-Care Address Your Business Critical Needs

Peace of mind

You have enough to think about without having to worry about your IT all the time. X-ISS keeps costs predictable and implements a customizable program that fits your business needs, so you can develop a solid, scalable IT strategy.

Uptime and Security

Since your data is integral to operations, shouldn't it be readily available and completely secure? The X-Care package, like all X-ISS solutions, is designed with the customer in mind and addresses the specific pains of downtime and data loss.

Key Features of X-Care

- 24x7 Monitoring and Alerting
- Unlimited Help Desk Support
- Ticketing and Reporting
- Vendor Management
- Email Business Continuity
- Onsite and Remote Disaster Recovery
- Patch, Anti-Virus and Spam Management

*"We expect things to work. With X-ISS, things always work."
- Reggie Spiller, Frontera Resources*
